Darling,

So get our babies out of hock today and bring them home. I haven't seen Judy's eyes yet. Hope to some day. Mary is feeling fine and ready to come on home. Indeed, anxious to come. Says they don't cook the vegetables right (ever heard that before?). and she wants more orange juice and more milk. She also says she is going to watch her "figger" and not get fat. Quite a job, but it can be done

Honest, I haven't had time to do anything. Am sure glad she will get home. I have spent most of my time going places. Did take off Saturday to go to Allou's church. Saw Sherwood briefly before meeting. He is terribly busy writing a book on the "Hist. of Christianity in America". Much too busy to come out here

or see many or any of us. He will see you  
in N.Y. Saw Kevin briefly.

About 10 people have returned cards  
and most paper the 27th. Tip'd  
will be in east. Jerry doesn't know where  
he will be.

Must rush to get ready now,

Dear Folks:-

Kay, Marie, Margaret and I just got back from Whittier - Been over looking at the Haas Avocado trees - Man has 800 of the best looking trees I have ever seen - Fruit is fine - Green, about 8 oz. lots of oil content - little fibre. He got 10 and 15¢ a pound last year - He has 2000 Lychee trees - got only  $3\frac{1}{2}$  pounds for them.

You have to sign up that no one uses or gets bread from the trees - They have patent on them -

Here the Catch - Duck - for 2.5 we need they are  $3\frac{5}{10}$  each.

In the long run I think they are worth it - Only thing is can you spend the  $87\frac{5}{10}$  now. Armstrongs are around  $1\frac{7}{10}$  to  $2\frac{0}{10}$  for 2-3 ft size - These are 3 to 4 ft

Dear Mammy and Pappy -

It's so much fun being  
lazy - I shouldn't tell you now,  
or you'll lose interest in your

Especially now that Mary and

It's looking less and less sensible to go in at this late date. I hope I'm right. This silly "fifth column" hysteria has reached ridiculous proportions out here. That's one thing that does frighten me. And also the fact that so many nice people I know are haunting munition factories looking for a job to save their own skins while blasting 10 others. Well, this is getting morbid - Alma I got some lovely grey material for sheets & yards. I think we have enough for a dress, too.

Ok! Thank you for the lovely blanket! We have it on our bed now, and do I like it! The couch cover is a beauty too.

I cleaned out the kitchen cupboards but am afraid we won't have room for your pottery till they eat some jam, etc, Alma. But I think that can be arranged.

We're been having berry pie galore! Yum yum - Love from

Dear Kirby:-

It gives me great pleasure to tell you the letters and statements are all gone - Myrtle was our 2 half days - addressed the envelope and I did the rest -

You have about 1600<sup>00</sup> coming from the statements we wanted. Last few weeks orders, we did not send them letter or anything. We sent out 200 of the main letters - and to those 200 were people who had 100 or more - the ones for 50 we sent one of the letters we already had on hand - hope this is OK with you - Have about 75<sup>00</sup> on hand in small checks for Books - Will see if anything

Dear Marathoners -

I hope you realize by this time that a 3 months tour of the South would be about enough. I do hope you won't get too tired.

Things going well here. I've been doing a little sewing - not much. A couple shirts for Walt - Sunsuit for myself - and I cut out that blue & white rayon print mother - for another dress. If you want it still - it will fit you the way I'm making it. But I had to have something. I've been wearing your cotton dresses around the house. I've got to get busy and make some slacks. I also cut out a red jacket - out of that small piece of light blue rayon we've had.

he brought home one chuck of meat -

must have had about 4 lbs for lunch.  
It certainly is good.

Walt's new suit sure looks  
swell on him - fairly dark green  
tweed - and an extra pair of slacks -  
plain green & lighter. Does he look  
handsome - my-my! made a  
nice green shirt to go with it.

Chots had to go to the Vet again.  
He had a bad bite on his jaw - kept  
getting a bigger & deeper hole there -  
he has maggots - we get him tonight.  
poor thing. I wrote home -

Dear Folks -

Sure we kinda neglected you here, haven't we? But we just haven't felt much like writing. We got home Fri. morning about 11:30. We started from Las Vegas at 4 AM! we figured we'd better get across the desert before it got too hot.

Bonneville Dam was swell - but

It's so hot - about scorching  
the rock on every side here  
make the place a furnace.  
Got there about 2:30 P.M.

Walt went swimming  
in Head Lake - cooled off

went on to Las Vegas for

he won't be here. But that  
can't be helped. I hope

I meant to write you last night - but kinda didn't get around to it. We stopped at Tucumcari, N.M. last night - and were at Holbrook, Ariz. now. We go to Boulder Dam tomorrow night, and then up early and home. We've had nice cabins the last few nights - and we've cooked a couple of meals - but mostly it's too much work. We haven't driven

I'm sorry and ashamed about not writing. Life seems so busy! And right now of course, with Marie in the hospital and preparing for Mary and Walt it's even more so. Will I be glad when they come?

I was planning on going to Falun as counsellor in a migrant camp for 3 weeks, but cancelled the plane of course. It really will make the summer less hectic anyhow, tho I am sorry to miss it. I'm glad we'll all be together for awhile - feel like we're hovering on the brink of something. I only hope that somehow we do stay out. There's no way of telling. People want to, but are so inarticulate.

that Marie has to go to Hospital & her appendicitis  
is going late today - she is expected out tomorrow -  
it is mighty bad thing all around. Jim had  
planned to go off to some Migrant camp w/  
money - Kay said she will probably have to  
stay home now. I'm afraid she will not.  
Perry thinks he can handle the mail &  
Kay came to get blackberries for a cobbler -  
just think of it - big juicy fellow - &  
the boys are raking some too  
wish you could see how many. Have made  
several little jars of jam - mixed with  
blackberries - they are making some now -  
will be some corn in a week. the little  
stuff. but worms killed about half of it.  
Tomatoes high as my head - but not much

fruit, except they will set or later  
your white, & yellow are blooming too  
Took them a long time to start growing -  
no one would eat the Chinese cabbage,  
except the snails, it was raining & seed  
so I fed it to the chicks. other cabbage are  
heading lots of beans odd each month &  
canned some set out the last flat of onion  
plants where the turnips had been  
I dug out one row of red potatoes, first  
a time made fine I planted a row of Ann  
Mary's corn yesterday in their place,  
okra fixing & bloom, been too cold -  
foggy all of this month & cold in morning  
young chickens doing fine - but not so  
many eggs, all want to set. plenty of frys  
I am keeping up fire here lately -  
so thankful I can work -  
love, & prayers. Mother

Tues. the 9th.

Dear Folks,

Well, I bought the ice skates. Oh boy! And am I good! You should see me. I swish around in my green suit with my black jacket underneath to keep me warm, plus a sweater of course, and mittens, and a new white and orange paisley wool scarf for my head. Walt has ear muffs (blue) to keep his ears warm. As for the actual skating...well, this is Walt's third time, and my third in 6 years. But really, we're improving already. I've only fallen down once, even if that time did make up for all the rest. I got figure skates, and they're swell for turning and everything, but I forgot and let the front part trip me up on some circles the last time, and zowie!! I hit, with my knee leading, and then slid gracefully on my face for about 15 ft. Walt says it was really beautiful. It would have been fun sliding, if I hadn't hit so hard and jarred my teeth. Good thing the ice was about 10 ft. thick. My knee is still black and blue, but I get no sympathy.

Speaking of sympathy, Walt is sure entitled to some. He has another boil on his arm, near the elbow, and is it a lulu. His whole arm is swollen and sore-as a boil. He has another one coming to we think, tho I sure hope it won't turn out to be one.

I just got through typing 5 full single-spaced pages of bibliography for Macintosh, Dad, that is only one part of a 35 section bibliography, and most of them are longer than this one. The office wouldn't handle it because of its length, so he had members of the class take a section. I did Walt's. My, my. Its almost too long to be meaningful, but is certainly a swell bibliography on the several subjects, under Systematic Theology. Well, I guess we go up to hear ~~Melthesen~~ (<sup>Morgenstern</sup>) from the Jewish Theological Seminary tonight on Judaism. Part of an exchange scheme, Niebuhr spoke there earlier.

Say, Mother, you ought to take up knitting for the trip, to keep you occupied while you listen to Dad spiel all over the country. Or how about crocheting? A bedspread would be nice! Or would it?

Its snowed several times this week, so its all nice and white, except for the dirty streets. Its been pretty cold here too. Tho I haven't been out too much. We set a pan of water outside and manufacture our own ice. What for? Well, Mariam gave Walt a case of ginger ale for his birthday. So...we like it with ice and with pineapple juice to make it go further. Its pretty cheap too. We can get 3 big bottles for a quarter at the Coop. So we usually do.

Well, how about a letter??? Take care of yourself, all of you, and how about a Dad's schedule?

Love  
Mariam

Hi-Ya Pals!

I am getting along very well  
one week ago we had two days of hot  
winds - scorched the potatoes like frost  
but they are growing fine now.  
I made myself sick working with the  
strawberries. They are not doing any better  
now in bed - but could not sleep for  
a few days. I have quilted that red  
quilt - I've brought one a pkg of poison  
it says pestless, & I sure got them  
die right on the spot to day I found  
a dozen lizards at the bed room door -  
another <sup>do</sup> along the butter bean row -  
about 8 or 9 quails all dead, put it in  
different places - found a dozen or more  
rails along the cedar row four days ago.  
chickens about the same only one fine  
hen sick, treating her with Bratt's Tonic

two hens to hatch next Monday -  
this is all I know - & its not  
worth telling - but would you do  
you how much I appreciate what  
you are doing for me - everyone  
is lonesome for you

Very glad you were sending some

Dear Kirby:-

All goes about the same everyone fairly well and going strong - ?

Worked at mothers Monday am - She has garden in wonderful shape - I mean it is clean of weeds etc -

Sue looks nice and everything coming along fine - Have been eating new potatoes for weeks, and beans this past week - The place of hers is really looking much better.

The past few weeks I have been over all the limes, avocados on the slope - put fertilizer out for 200 trees - Have irrigated all trees twice - Next irrigation starts <sup>yesterday</sup> next wed - just finished putting in 3½ days on grapes and berries - And I say they are really looking better.

This am I went once cleaned & watered the 9 rows of poinsettias.

Went around and put tree wrappings  
on the 22 new trees, and have been  
watering them often - Carry water  
in bucket to water these 5  
little trees up the road.

Have cleaned out around storage  
house & old rabbit pens - and north  
of arbor - Also Canoes and Maine  
and I have the glads ready in  
fine shape - 3 of them are out now.  
Maine worked both beds of roses  
over and watered - And she planted  
the petunias and has been keeping  
them going. She even mowed the  
lower lawn by fish pond this  
am and took grass to Mother.

Maine has letters out for 11,600  
books - @ 5 would be 580<sup>00</sup> and  
she says about that many more to go.

Howard had a good nights sleep in  
about 2 weeks - Getting so late  
to look at a hole - Hey-Hey.

Won't be long now and many others will be  
rolling in. Hope both we are ok - Love - P. L.

Well Boys and girls we finally saw the big fight - Across the Canyon on other side this am at 7:15 yes, Chota and big skunk - we stood on the rail in the road and watched - Chota would stay away, and Skunk would run at him, bark at and

run at him again, I told Marie  
watch him now and see him  
get, sure enough Chota made  
a dive, grabbed him by neck -  
shook him once and then turned  
and went off about 30 feet <sup>is up</sup> stayed

So we had Marian over for  
about 4 days, tho she  
was out most of the time.  
We opened presents this  
morning, and she was here  
then, after going caroling  
with her Sunday school kids  
at 4.30 A.M. Walt, the  
rat, guessed most all

of his presents, drat it! —

which were handball gloves,  
suspenders (much needed), and  
cuff links, plus a bunch  
of screwy games, including  
miniature croquet. <sup>Anne</sup>

\* Pete gave us a lovely plate,

the kind with a dark blue  
border. flower in center very nice.  
Then I got what has been wanting  
for ages. a beautiful copper pin  
to go with my bracelet Perry  
gave me. Its a leaf pin. made  
by Southern Highlanders - handled  
thin the Corp. made at Asheville,  
N.C. incidentally, then I got  
a new hat, a new slip, a  
set of Gardiners lavender - tiled  
water, sachet, soap, and cream.  
and a good game called  
Contact. You guys ought  
to try it. 2 to 2 can play. Sept  
I never win.

Walt says you guys ought  
to stop. but he loves the

robe, and does he need it by  
now. The roof is working  
swell too, and the kids  
have eaten up all our nuts  
hanging on the nut bowl  
with that cute hammer. Did  
you make that ad the buttons  
too, Kay? we love them

I'm going to buy stockings  
while my check, and thank  
for the gas. Walt just  
finished breaking two of  
my other ones, miffing me.  
Oh yes! Walt also bought 2  
new arrow shirts with his Dad's  
check and he still needs more.  
I've been working some more at  
the library and maybe I can

get him some.

Walt's birthday was yesterday -  
25 - an old man! And also  
Dad, Edith Clysdale, the Canadian  
fish, and Bennett Macguder got  
married in the Chapel - my  
niehus. it was lovely. Then  
I dashed home - and I cooked  
Walt's birthday fish & a T-bone  
steak, and iced the cake  
and before dishes were all  
cleared people started drifting  
in. So we fed them our  
favorite concoction. I pineapple  
juice and fingerals - say it  
some time - and Walt blew all

6.

The candles out, and one  
over. And much fun was  
had by all. I gave him  
a nice new brief case affair  
and Anne's Pett gave him  
ear muffs - and boy has  
it been cold here - down  
to 6° the other night - and  
too cold for snow. No snow  
at all yet really - not  
to last more than an hour.  
We went to an ice hockey  
game the other night - our  
first - first 2 high school  
games, but very good. 2  
tie games - and overtime

periods. One guy knocked  
out cold - against the  
side wall - several fights  
and much commotion.

We've had to push the car  
2 mornings in a row - even  
with anti-freeze in it.

Sorry we couldn't send you  
any presents, or even for Karp's  
birthday, but I'm still working  
on something, maybe you can  
have it by June. Thanks

for the letter & telephone.

They were swell. Well - I'd  
better leave Walt some room to  
write - we're still ready for visitors -

Hi - Folks - and do I believe  
in Santa Claus? And how!!  
Mary didn't tell you that with  
most of the money she earned -  
she bought me a beautiful brief  
case - that expands into a  
slim - overnight bag - I tried to  
budget out the dough so her  
so she wouldn't spend too  
much - but what can you do  
when she earns her own???

She's a chip from the old blocks  
I'm afraid, what a family!!!

Thanks just millions for  
everything. We so grateful  
and joyful. - all set for a  
Bong-up New Year - Best regards  
+ love, many

This is terrible - Your  
husband getting written up  
in that infallible book  
The Red Metawak! Can't  
you make him "kash"  
Causing all this trouble  
"just ain't right" And think  
of all the boast that Sept  
meeting is getting in this way,  
do the best you can  
with him and "purify  
his teachings" *Gale*

Dear Falp,

Well, I've just went to a coop meeting, & did just go because I have too much to do; dog, only 6 weeks before exams, & they at school until 6 every night & I still have work piled up. Sue is about to study herself to pieces.

We received a bill from the dentist the other day, could not pay it now.

2 and we will pay it back  
later. - It's  $\frac{1}{2}$ , and will pay it back  
\$3 a month. I forgot it!

I chipped a tooth, or  
rather a tooth broke off  
next to a filling and I  
will have to go see him  
about it.

Last week we were  
invited to a frozzel so  
we went to the mountains  
with Larry and Virginia  
some fun.  
so much for us.

How are the meetings.  
and how is mom,  
Take it easy.  
I am still upset about  
you not taking that  
extra tire; rather foolish.  
Have you used the camera,  
would you like my  
light meter.  
Take lots, they will be  
nice later on. They will  
be worth it.

I have to go to work  
so:

Yours  
Koy.

Dear folks -

If you're having half as grand a time as you say you are, I envy you. But we're really enjoying it here, too.

Kay says to tell you he's having Marie send those filters to you. Change them every 6000 miles. And change the oil at the same time. And he's still griped about the tire!

Kay says to tell you he got thru harvesting the avocados this weekend too. He mowed the lawn too, except one side of the lower lawn - he got too tired. He really worked. Sunday p.m. I sat out on the lawn in a play suit and

competition for Mary Jo.

I don't know where the time has gone, but I've done no reading, Kirby, and I'm ashamed, but I'm sure I won't get any done now till school is out. I've been getting up at 5:00, and the day goes even faster, it seems. I've been working on the Yanks Are Not Coming Committee, and I'm kind of puzzled about the whole affair - how far something like that is really effective, you know. I'm not sure, but think it was worth trying anyhow.

Darned - with 6 kittens playing with the thread. By the way the lightest gray cat and Brownie have kittens too. We found them both Saturday. Brownie has only one and he's Patches Jr. Cutest thing you ever saw. Little white square face, and round as a ball.

We've been going down to Grandmas for Sunday dinner - take our lunch down, and she usually fixes at least one thing, too, you know. We enjoy it.

Susie talks like she'll be here any minute, now that we can offer a little

I'm staying over here  
next weekend to work on  
my paper in the library.  
I never study over the weekend  
at home and I just have to.  
6 weeks and it's all over!  
Will have fun this  
summer!

Don't mind if we  
don't write often. You know  
we think of you, and we're  
all getting along perfectly.  
Don't work too hard, both of  
you.

Kay wants you to keep a  
week open for Mexico this  
summer Kirby. Don't you  
think you'll need it by then?

Love to you both  
Irie
